Get the best possible Wi-Fi range and reception with charging capabilities

The ShadowLite is a compact robust 4G/3G Wi-Fi enabled charging system in one extremely durable, weather resistant case. It is designed to provide AC and DC power for charging phones, laptops and other electronic devices. The ShadowLite can be configured as an extended range Wi-Fi "Hot Spot" with up to 700 feet of reception. Rapid USB chargers and GFI protected AC plugs come standard*. The ShadowLite accomplishes all of your charging needs using either a single standard 120V AC plug or an external battery with optional solar panel and can even be plugged into a 12V car power port for maximum versatility.

Standard Features

- Free standing sturdy, weather resistant case
- Extended range antennas for up to 700 ft Wi-Fi
- Easily accessible and secure Wi-Fi connection “Hot Spot” using 4G/3G technology
- Supports “G” and “N” wireless protocols with up to 20 users
- 120V AC, 12V DC, 5V DC output
- Available outlets range from ordinary household and car type power ports to USB power
- Qty (8) USB 2.1 Amp rapid phone charging ports can cut charging times in half
- 12V DC port available for use with automotive charging type cables
- Unit can be powered from a 12V car power port while still powering the Wi-Fi, 12V DC & USB
- Supports most existing chargers for smartphones, laptops and tablets
- Multi phone brand retractable charging cables
- Qty (2) AC Outlets with GFI surge protection
- Convenient tabletop format with space to place mobile devices
- Internal 30 Amp circuit breaker for added protection
- Power supply and chargers are UL listed and overload protected
- Digital display showing DC Voltage

Optional Features

- 120 or 80 Watt folding solar panels with built-in solar controller adjustable legs**
- Extra USB charging cables for additional charging options
- Additional external batteries for extended run times
- Ethernet options available to connect to a landline or to provide internet access to an Ethernet port.
- Diversity high gain external antennas

** Must be interfaced with external battery to utilize solar panels

Specifications

Model Number	ShadowLite
Outside Dimensions (W x D x H)	in 13.37 x 11.62 x 6.00 cm 33.95 x 29.51 x 15.24
Weight	10lbs
Input Voltage Range	120V AC, 12V DC
Output Voltage	12V DC, 5V DC, 120V AC *
Operating Temperature	-30° C to 45° C
USB 5V DC Charging Amperes	2.1 Amp (iPad Compatible)
Wi-Fi Standards	IEEE 802.11 b/g/n
Network Connections	Internal Modem & WAN
Certifications	FCC, IE, CE, Wi-Fi Alliance
Electrical Safety	UL/CSA
